

### Investment Objective

The aim of the fund is to provide a stable, short-term home for investors that offers rates of return consistent with short-term instruments available in money markets. The fund invests across four institutional liquidity funds managed by Barclays Global Investors, Insight Investment, HSBC and Royal Bank of Scotland. This ensures that the fund is diversified across a wide variety of money market instruments.

### Investment approach and rating

The fund carries an AAAM rating from the independent ratings agency Standard & Poor's, their highest rating. This means that the fund is independently rated as having the highest level of strength and security to maintain capital stability and to limit exposure to loss of capital. The underlying money market instruments carry a minimum rating of A-1 for short-term investments.

### FUND CREDIT BREAKDOWN

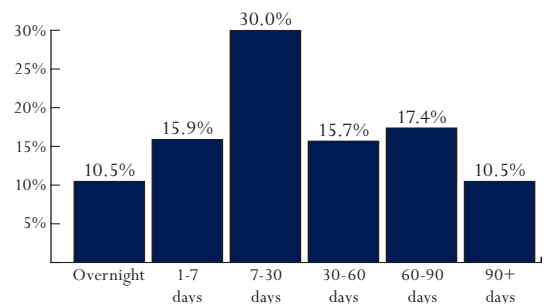

### Short-term issue credit ratings

A short-term credit issue rated A-1 is rated in the highest category by Standard & Poor's. The issuer's capacity to meet its financial commitment on the debt is strong. Within this category, certain debt obligations are designated with a plus sign (+). This indicates that the issuer's capacity to meet its financial commitment on these obligations is extremely strong.
